## Pregunta 1

Correcta

Se puntúa 6,00 sobre 6,00

**I PART. Reading Comprehension**

**A. Read the text carefully. Then, fill the blanks with the words below. Drag you answers and drop them in the corresponding space. (6 points)**

**What is a Database?**

A database is an organized  ✓ of structured information, or data, typically  ✓ electronically in a computer  ✓. A database is usually controlled by a database management system (DBMS). Together, the data and the DBMS, along with the applications that are associated with them, are referred to as a database system, often shortened to just database.

✓ within the most common types of databases in operation today is typically modeled in rows and  ✓ in a series of tables to make processing and data querying efficient. The data can then be easily accessed, managed, modified,  ✓, controlled, and organized. Most databases use structured query language (SQL) for writing and querying data.
